

dcases* in align work?

dcases* and friends from mathtools work, iff curlybraces is set.

Package mtpo2 options: **lite**, **curlybraces**

$$\left\{ \begin{array}{ll} \int_a^b f(x) dx & \text{Nothing to see here} \\ \sum_{n=1}^{\infty} \frac{1}{n^2} & \text{Otherwise} \end{array} \right.$$

With morphedbraces or straightbraces, errors appear.
